

Lower Long Lake Protection and Rehabilitation District Board Meeting

June 10, 2002 - 7:00pm, Sampson Town Hall

Attending: Guy Wood, Secretary/Treasurer; Brian Kent, Commissioner representing Town of Sampson

Others Attending: Mike North, Town of Sampson Chairman

Lack of quorum; no board actions could take place

Reports:

1. Mike North showed the map he received from the Long Lake Foundation showing the areas of land held by the Foundation. This map will be posted in the Town Hall.
2. Brian reported the following positions of the Town on LLLPRD items that have been raised:
 - (a) There is no storage area for a Pontoon Boat at the Town Hall. A new pole building will use land that was thought to be available. Should the District go ahead with this project, it should locate another place to store the Pontoon Boat.
 - (b) The Town Board requests a copy of the LLLPRD certificate of Liability insurance coverage. It is felt a copy should be given to the Town with each renewal.
 - (c) The "No Wake" posting for Dark Lake is felt to be a DNR action for enforcement since it is a State Statute. The District should contact the DNR for posting the signs and enforcement of the State Law.

Since no action could be taken, the above items were noted for referral to a future meeting. The meeting was adjourned at 8:00pm.
